## MOVES TO NEW CREAMERY BUILDING.

Two Story Building for Sanitary Creamery Erected by E. L. Jerome.

E. L. Jerome, proprietor of the Sanitary Creamery, has moved into the new building he recently constructed for his rapidly increasing business.

The main building is 25 by 100 feet. The lower floor is to be used by the creamery and the second floor contains five modern living rooms, which will be used by Mr. and Mrs. Jerome for their home. An annex is being constructed in the rear of the main building which will be used for boiler room, coal and storage.

Mr. Jerome came to Monett from Peirce City, five years ago. At first he had as a partner, Wm. Smerdon, but he later purchased his partner's interest. When he came to town, Mr. Jerome did not have a customer, but he has, by fair and honest methods, worked up a large patronage. His patrons cover a large radius of country—south as far as McDowell, west to Peirce City, east to Verona and north to Freistatt.

The creamery is fitted with the best of machinery for this work. There is a complete butter making plant and W. T. Hineman, the butter maker, puts out a product excelled by none. This is marketed at Monett, Springfield, North Arkansas and other places.

Mr. Jerome makes a specialty of ice cream, having been in this business for thirty-five years. Although prices of material are high, Mr. Jerome has kept up to his high standard without greatly increasing his wholesale price.

The Sanitary Creamery is a business of which Monett may well be proud. Mr. Jerome gives it his close personal attention and his products merit the public approval which they receive.
